

Want to get ahead? Get a 0% loan.

A business opportunity you can't afford to ignore.

In the current economic climate every business needs to stay one step ahead. A 0% loan from the Carbon Trust could help you do just that.

You can borrow between £3,000 and £500,000 (flexible to your business needs), interest free and unsecured. Applying is straightforward and with no arrangement fees, you can even access capital without denting your cashflow.

Save money while investing in your company's infrastructure.

Investing in energy efficient equipment will cut your energy costs. With loan repayments calculated to be covered by your estimated energy savings, and your equipment continuing to save you money long after the loan's repaid, you win twice over.

Cut costs without cutbacks.

UK businesses that implement cost effective energy efficiency measures could save around 20% a year on energy costs. And money that's not being spent on energy bills is money that can be put to good use elsewhere.

Get a loan and start saving.

Applying for your loan is easy, there are no arrangement fees and you'll have a conditional offer within 24 hours.

So why not use our one-step online application process at www.carbontrust.co.uk/loans or pick up the phone and call us today on **01865 885 837**.

How a 0% loan is helping three companies cut their energy bills.

- A £12,000 loan helped Fox Wire, a manufacturing company, to install an efficient, variable speed air compressor. They saved over £6,500 per year – meaning the loan paid for itself in less than two years.
- South Devon residential care home Hyne Town House, turned to the Carbon Trust for a £12,500 loan. The money was used to install energy efficient lighting, update the hot water system and install solar tubes, saving them £4,800 a year on their energy bills.
- Roberts Mart, a Leeds-based packaging company, took out two loans totalling £288,000 to improve their lighting and update inefficient printing equipment. All told, the changes are expected to save the company £129,000 a year.
