* Net of benefits				Total		38,921	
Notes. The total figure of £38.921bn excludes the cost to business of the National Minimum Wage Regulations 1999 and subsequent amendments to the rate.							
Where government RIAs have given a range of costs the Barometer has taken the mid-point figure. In those cases where certain provisions come into force later than the regulation itself, the reduction in compliance cost has been ignored.
